# HD-RX-101-C-1G-E-B-T

# DM Lite – HDMI® over CATx Receiver, Wall Plate, Black Textured

- > Pairs with a DM Lite transmitter to provide a simple point-to-point signal extender
- > Enables extension of HDMI® video and audio signals
- > Links to the transmitter via a single CAT5e (or better) twisted pair cable [1]
- > Supports 4K and UHD at up to 130 ft (40 m)
- > Supports HD 1080p, WUXGA, and 2K at up to 230 ft (70 m)
- > Handles 4K video resolutions up to 4K60 4:2:0 and 4K30 4:4:4
- > Handles 3D video and Deep Color
- > Supports Dolby® TrueHD, Dolby Atmos®, DTS HD®, DTS:X®, and uncompressed 7.1 linear PCM audio
- > Compatible with HDMI and DVI display devices[3]
- > HDCP 2.2 compliant
- > Passes CEC and EDID signals
- > Flush wall mount design
- > Installs in a single-gang U.S. electrical box (2-1/4" deep) or plaster ring
- > Decorator style faceplates sold separately
- Normally powered by the transmitter (surface mount) over the link cable [2]
- > Universal 100-240V power pack available separately (coming soon) for use with a wall plate transmitter<sup>[2]</sup>

For applications requiring a surface mount version, refer to the HD-RX-101-C-E.

For applications that require IR or RS-232 signal extension, refer to the HD-RXC-101-C-1G-E-B-T.

The HD-RX-101-C-1G-E-B-T is designed to mount in a single-gang electrical box or plaster ring (not included). It is normally powered by the transmitter over the link cable when using a surface mount transmitter. If using a wall plate transmitter, a single power pack must be purchased (sold separately, model TBA), which may be connected to either the receiver or transmitter. [2]

Important: This product is not addressable from a control system and offers no programmable functionality. AV and CEC signals are simply passed through between a single transmitter and receiver pair. The RJ45 link port on this product is exclusively intended for linking with a single DM Lite transmitter. It should not be used to connect to any other equipment or network. DM Lite is not compatible with PoE, PoDM, DigitalMedia  $8G+^{\circ}$  (DM  $8G+^{\circ}$ ), or HDBase $T^{\circ}$ .

Faceplate sold separately

#### **SPECIFICATIONS**

# Video

Output Signal Type: HDMI w/Deep Color, 3D, & 4K (DVI compatible [3]) Copy Protection: HDCP 2.2

#### **Maximum Resolutions:**

Scan Type	Resolution	Frame Rate	Color Sampling	Color Depth
Progressive	4096x2160 DCI 4K & 3840x2160 4K UHD	24 Hz	4:4:4	30 bit
		30 Hz	4:4:4	24 bit
		30 Hz	4:2:2	36 bit
		60 Hz	4:2:0	24 bit
	2560x1600 WQXGA	60 Hz	4:4:4	36 bit
	1920x1080 HD1080p	60 Hz	4:4:4	36 bit
Interlaced	1920x1080 HD1080i	30 Hz	4:4:4	36 bit

NOTE: Common resolutions are shown; other custom resolutions are supported at pixel clock rates up to 300 MHz

# Audio

**Output Signal Type: HDMI** 

Formats: Dolby Digital®, Dolby Digital EX, Dolby Digital Plus, Dolby TrueHD, Dolby Atmos, DTS®, DTS ES, DTS 96/24, DTS HD High Res, DTS HD Master Audio, DTS:X, LPCM up to 8 channels

# **HD-RX-101-C-1G-E-B-T** DM Lite — HDMI® over CATx Receiver

### Communications

HDMI: HDCP 2.2, EDID, CEC pass-through

DM Lite Link: Proprietary link for connection between one DM Lite TX &

RX only

#### Connectors

HDMI OUT: (1) HDMI Type A connector, female; HDMI digital video/audio output (DVI compatible [3])

FROM TX (rear): (1) 8-pin RJ45 connector, female, shielded; Link port for connection to a DM Lite transmitter [1]

**24VDC 1.25A (rear):** (1) 2-pin 3.5 mm detachable terminal block; 24 Volt DC power input;

Power pack sold separately (if required, model TBA) [2];

Note: This connection powers both the receiver and transmitter; this connection is not normally used when pairing with a surface mount transmitter.<sup>[2]</sup>

#### **Indicators**

PWR: (1) Green LED, indicates operating power is supplied from the TX via the DM Lite link or from a power pack via the 24VDC input HDMI OUT: (1) Green LED, indicates HDMI output signal presence FROM TX: (2) LEDs (on RJ45 connector), green LED indicates link status, amber LED indicates a valid video signal

#### Power

Power Pack (sold separately): Input: 100-240 Volts AC, 50/60 Hz;

Output: 1.25 Amps @ 24 Volts DC;

Model: TBA

Note: This power pack is only required when pairing with a wall plate transmitter. When pairing with a surface mount transmitter, use the power pack supplied with that transmitter. The receiver and transmitter are powered together using a single power pack connected at either the receiver or transmitter (not both).<sup>[2]</sup>

## **Environmental**

Temperature: 32° to 104° F (0° to 40° C)
Humidity: 20% to 90% RH (non-condensing)

# Construction

Composition: Metal housing and bracket with black polycarbonate front label overlay

**Mounting:** Mounts in a 1-gang (or larger) 2-1/4 inch (57 mm) deep U.S. electrical box or plaster ring (not included)

Faceplate: Requires a decorator-style faceplate (FP-G series,

sold separately)

#### **Dimensions**

Height: 4.08 in (104 mm) Width: 1.81 in (46 mm) Depth: 1.97 in (50 mm)

# Weight

5.22 oz (148 g)

# Compliance

UL Listed for US & Canada, CE, IC, FCC Part 15 Class B digital device

# Maximum DM Lite Link Cable Lengths

#### Notes:

1. For the DM Lite link cable, use Crestron DM-CBL-8G DigitalMedia 8G™ cable, Crestron DM-CBL-ULTRA DigitalMedia™ Ultra cable, or third-party CAT5e (or better). The maximum cable length is 230 ft (70 m) for resolutions up to 2K or 130 ft (40 m) for higher resolution signals up to 4K. Refer to the "Maximum DM Lite Link Cable Lengths" table for a more detailed overview. Shielded cable and connectors are required when bundling multiple cables in a wire run, and are recommended for all applications to safeguard against unpredictable environmental electrical noise which may impact performance at resolutions above 1080p. All wire and cables are sold separately. DM Lite devices are not compatible with DigitalMedia 8G+ (DM 8G+), HDBaseT, PoE, PoDM, or any other CATx based interface or network.

- 2. When connecting a wall plate receiver to a surface mount transmitter, use the power pack that ships with the transmitter. If the receiver and transmitter are both wall plates, a separate power pack must be purchased, which may be connected to either the receiver or transmitter. Only one power pack is required. Do not connect more than one power pack. Please note, the wall plate compatible power pack is not yet available. Please contact Crestron Customer Support for assistance when pairing a wall plate receiver with a wall plate transmitter. DM Lite devices are not compatible with PoE or PoDM.
- 3. The HDMI output requires an appropriate adapter or interface cable to accommodate a DVI signal. CBL-HD-DVI interface cables are available separately.
